## STONEMAGNET SM-600 Vacuum Lifting Device

**Handy, powerful and cordless vacuum lifting device for laying of dense stone slabs, concrete elements, pipes and similar. Can be used on all kind of lifting equipment.**

- Specially designed and equipped for heavy duty work on the construction site.
- For special purposes, there are different suction plates available, which can be attached to the SM easily.
- Can be used with any hoist.

### Standard Specifications:

- Robust and compact main body, with integrated suspension for crane hook and quick change device for the suction plate.
- With integral chain-box and load-securing chain.
- Galvanized finish.
- Powered by rechargeable, exchangeable 12 V battery. Power saving control system makes battery lasting for one whole working day. Battery can be exchanged within seconds. Battery charge indicator. Battery charger not included.

- Integral charger socket for charging.
- Security features: Flashing light to warn on insufficient low pressure, automatic control system to start the vacuum pump after loss of pressure, manometer, high volume vacuum storage tank.

### Special features:

**The SM is equipped with 2 vacuum-pumps as standard. When handling dense products, only one pump is used. On slightly porous material, or when quick cycle time is required, the second pump can be switched on by the TURBO switch.**

### Additional features of the

#### SM-600-POWER:

- Twice the pumping capacity compared with the SM-600, providing greater reserves for slightly porous materials.
- Built-in operating hours counter.
- Suction and release operation via comfortable button-activation.
- Optional retro-fitting of remote control for suction and release operations, enabling single-operator activation from the carrying device.
